

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am a Flight Attendant writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

I have been flying for 20 years. We have seen many changes over the last few years. Passengers and crew are more stressed than ever. Please do not make it even more stressful by allowing cell phone use onboard the aircraft.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Dont make changes that will threaten my safety. Dont make changes that will make my work environment more stressful. Dont make changes that will make flying more uncomfortable for my passengers. Don't make changes that create more problems than they solve.

Please leave the current rules in effect.

Sincerely,

Karen Nakaoka
